Focus on hygiene

SYSPAL has been manufacturing stainless steel hygienic essentials for over 40 years. We understand the ever increasing requirement for durable, easy to clean products that are fit for purpose.

Our most recent product launches include a face mask dispenser unit and social distancing screens and we continue to design and develop products that improve best practice processes and meet new regulations for hygiene within the workplace.

Below are just some of our hygiene focused products, visit our website to view more or call us today to discuss your hygiene requirements.

Hygicontrol Compact Units

Stainless Steel Ingredients Bin

See page 24 for more information

61L	L590 x W290 x H740	548/039004
87L	L590 x W380 x H740	548/039005
132L	L590 x W530 x H740	548/039006

Product Spotlight - Transfer Hatches

Stainless steel transfer hatches allow the transfer of materials, products or packaging between high care rooms and low care support areas, minimising the risk of airborne unhealthy contamination.

High Speed Electric Hand Dryer

High flow electric hand dryer. Enlightened central nozzle with forced air over 230km/h. Choice of hot or cold air by concealed switch. Automatic shutdown after 60 seconds or automatic stop at removal of hands.

Electric Dryer	L180 x W230 x H250mm	517/27204
----------------	----------------------	-----------

Turboforce® Junior MKII Hand Dryer

This dryer is ideal for limited space washrooms that will not receive more than 1000 uses a day. Dry time of 15 seconds and an air filter included as standard. Internal switch allows change of hot or cold air setting.

Turboforce® Dryer	517/27257
-------------------	-----------

Dryflow® Viper Hand Dryer

Two angled blades of air simultaneously scrape moisture from the hands providing a dry time of 15 seconds. One of the quietest hand dryers in it's class between 70-74dB. HEPA filtered air and customisable settings.

Dryflow® Dryer	517/27253
----------------	-----------

Dryflow® Vapordri Hand Dryer

A dry time of just 11 seconds using clean air pulled through a H14 HEPA filter. High traffic hand dryer with an intelligent heating system, only adding heat to the airflow if the washroom temperature drops below 25°C.

Vapordri Dryer	517/DFVAP1G
----------------	-------------

G-Force MKII Hand Dryer

Easy install hand dryer with a plug-in back plate with fast connectors for wiring purposes and phased installation. Dry time of 10-12 seconds and customisable noise and energy levels to suit your needs and location.

G-Force Dryer	517/27283
---------------	-----------

Paper Towel Dispenser

Lockable stainless steel paper towel dispenser with a brushed finish. Suitable for C-fold or multifold paper towels. Vision slot for stock level checks.

Dispenser	L262 x W128 x H300mm	517/27272
-----------	----------------------	-----------

POLYBAG HOLDERS & BINS HYGIENE, HEALTH AND SAFETY

Swing top Waste Bins

Sturdy, enclosed unit prevents bags splitting. 304 grade stainless steel. Removable top. Easy to clean.

Bin	L 400 x W300 x H755mm	514/002032
-----	-----------------------	------------

Tubular Frame Polybag Holder

Accommodates industry standard bags. Cost effective. Lightweight free standing tubular framed design. Supports the base of the bag. Hygienic design. Lids available.

Tubular	L458 x W441 x H725mm	514/002007
Tubular Lrg	L541 x W460 x H954mm	514/002010

Circular Polybag Bin

Fully enclosed with safety edge. Rubber retaining band. Ø 460mm. Floor standing. Fully enclosed to prevent sharp objects piercing the bag.

Solid Body	L460 x Ø460 x H800mm	514/002039
------------	----------------------	------------

Segmented Polybag Holders

Free standing with 'X' shaped base. To suit all standard waste bags. Ideal for separating waste for recycling.

Dual	L 460 x Ø460 x H820mm	514/002015
Triple	L 551 x Ø551 x H820mm	514/002016

Octagonal Base Polybag Holder

Quick and simple way of accommodating waste. Crevice-free design for use in production areas. Ideal for use with standard waste bags.

Oct	L450 x W450 x H700mm	514/002000
Oct Lrg	L520 x W520 x H1000mm	514/002052

Free Standing Polybag Holders

To suit all standard waste bags. Floor standing frame with rubber retaining band.

Standard	L500 x W400 x H800mm	514/002044
w/Plaque	L550 x W400 x H975mm	514/002043
Foot Operated	L450 x W410 x H935mm	514/003003

Side Hinged Polybag Holder

Foot operated waste bin with side hinge for use in hygienic environments. For use with standard polybags, the long foot pedal makes the bin easy to open hands free, eliminating the risk of contamination.

Side Hinge	L450 x W450 x H950mm	514/002064
------------	----------------------	------------

Mountable Polybag Holders

Sink mounted or wall mounted designs available. Sink unit mounts on the side of sink unit. Sink not included. Both units have rubber retaining band. Wall unit has 4 x fixing holes and can be used with standard waste bags.

Sink	L250 x W200 x H120mm	514/002041
Wall Mount	L400 x W358 x H180mm	514/002033

Mobile Polybag Holder

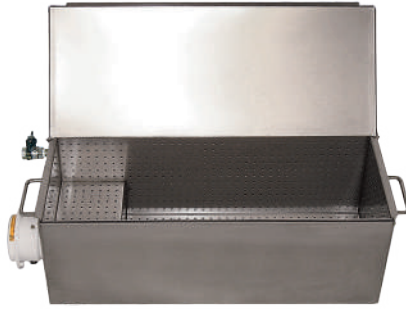

Hinged lid, with a bag retaining band. Mobile, 'U' shaped base for easy transportation. Now includes soft close mechanism.

Mobile	L450 x W410 x H935mm	514/003007
Fully Clad	L460 x W490 x H1115mm	514/001002

HYGIENE, HEALTH & SAFETY

Knife Steriliser

Bench Top Steriliser

Knife Sterilisers

Wall mounted knife steriliser and bench top steriliser have a temperature indicator light and built-in thermostat. Knife steriliser has a removable knife cradle and hinged lid. Knife steriliser available with 6 or 12 knife capacity. Stainless steel lid and insulated body for greater energy savings. Bench top steriliser has a removable basket.

TROLLEYS & TRAYS EURO CONTAINER & TRAY HANDLING

Single Column Tray Tipper

Tray tipper designed to lift and transfer trays while reducing manual handling risks. Lifting carriages, column heights and tipping profiles designed to suit individual handling applications. Safe working load of 100kg.

Single Column Tray Tipper

Industrial Tray Washer

Washing system for trays with rotating arms for thorough cleaning. Designed for solving all the problems associated with washing trays up to 1000 x 800mm. Cutting down on washing costs while ensuring a consistent, high level of hygiene. Dimensions dependent on model chosen.

Industrial Washer

Multihead Weigh Pan Wash Wall

Wash wall accommodates 7 x multihead weigh buckets to ensure a thorough clean of the buckets. Base has a removable perforated drain cover with drain outlet for easy washdown.

Wash Wall L2052 x W546 x H1830mm

600/WW

Multi-Purpose Lifter

Multipurpose battery operated lifter with various lifting attachments available. Low profile front frame for movement under machinery, pallets and racking. Supplied with two battery packs and a charger.

Battery Operated Lifter

600/MH1

High Speed Tray Tipper

Product or ingredient trays can be manually loaded into the lift carriage by the operator. This allows batch production to be completed off-line and brought to the tipper from warehousing or WIP. Nominal capacity of 50kg. Up to 1.2m/sec lift speed.

High Speed Tipper

600/HS2

Tray Wash Rack

Rack to assist with washing trays. 304 grade stainless steel. Accommodates 600 x 400mm trays. Perforated shelving for drainage. Holds trays at an angle of 14° to help access all of the tray interior when cleaning.

Wash Rack L1460 x W540 x H1825mm

SYSPAL can design a reel handling solution bespoke to your needs. Call us to discuss your reel handling needs today on 01952 883188

SINGLE BIN SOLUTIONS

The full production solution for 200L and 300L Eurobins

WEIGH

Syspal's Eurobin Weigh Scales are designed to eliminate the need for floor pits and ramps. Providing the most hygienic and operator safe weighing solution for the food manufacturing environment.

STORE

A modular Eurobin racking system that offers increased storage capacity and improved batch control. Bespoke factory layouts can be easily managed. Compatible with Syspal's Eurobin stacker.

MIX

Ideal for marinating, coating and infusing ingredients, Eurobin tumblers are designed to thoroughly mix ingredients without the use of mixing arms or paddles. This minimises the risk of product damage resulting in a high quality finished product.

LIFT / TIP

Use lifters or tippers whilst lifting and emptying Eurobins to their desired location. This eliminates manual handling which increases efficiency and also reduces the risk of injury to staff.

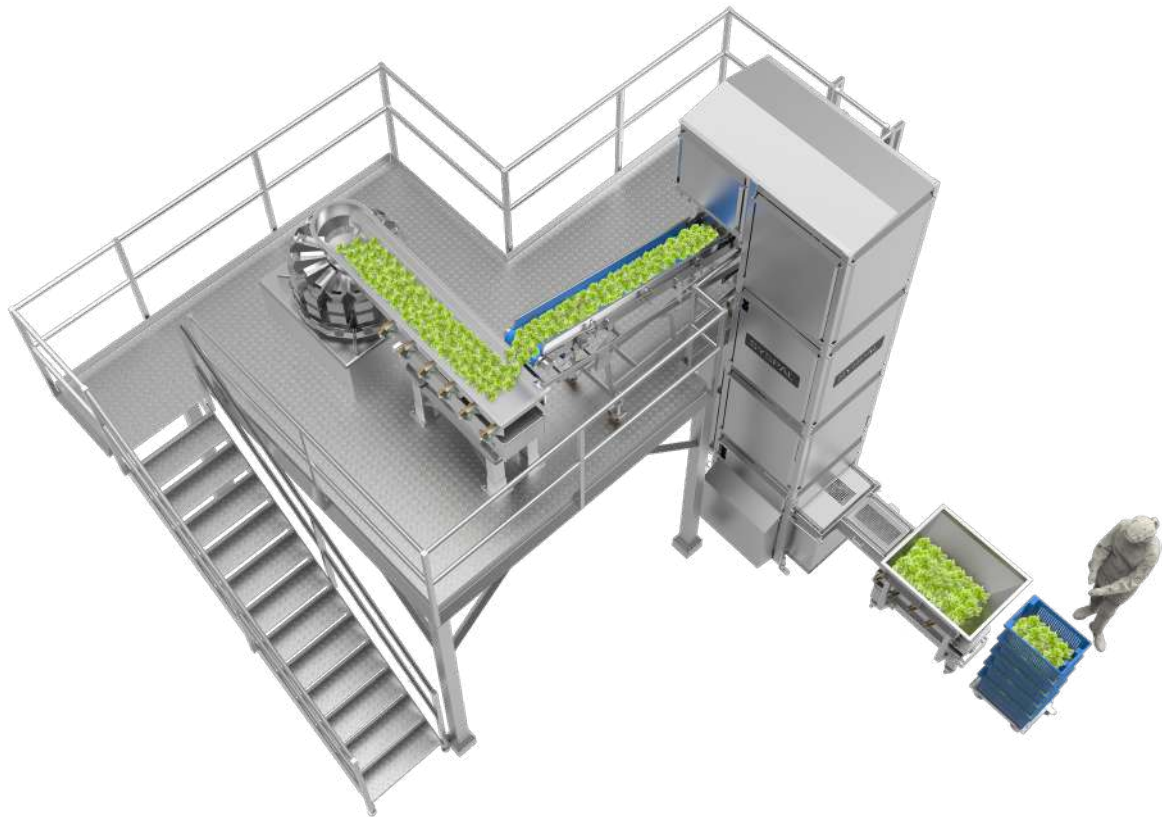

WASH

Allowing for 360° cleaning access, the Syspal wash frames reduce the risk of manual handling injuries and the risk of damage to both the Eurobin and the washroom floor, whilst improving throughput and hygienic practices.

Projects & Processing Solutions

With over 40 years experience in design and manufacture, we can create innovative solutions for specific applications to overcome a range of production challenges.

Speak to a member of the SYSPAL team today, to discuss how we can help turn concepts into reality. Our large manufacturing site is located near Ironbridge, a World Heritage location in Shropshire.

MANUFACTURE

We manufacture at our own British high-tech facility using the latest equipment. We continually invest in new machinery and are fully accredited to ISO 9001:2015 amongst others and are regularly audited by BSI.

INSTALLATION

We employ specialist fully trained site fitters to ensure installation to the highest standards. We are Safe Contractor approved.

FINANCING

Many customers have their own finance in place, however for some this can be a minefield. Discuss leasing our products with us today.

MANAGEMENT

We don't just sell you the finest equipment, we also manage your account. We understand your needs and best fit solutions for applications through many years of experience.

DESIGN

We employ 22 full time design engineers to ensure compliance with all relevant standards and to provide well engineered solutions for you, the customer.

SUPPORT

We have an in-house dedicated service department to look after you and your equipment. Should you or your equipment ever need us, rest assured we will be there to support you in your hour of need.
